USB-C

LMP USB-C mini Dock

PRODUCT OVERVIEW

The LMP USB-C mini Dock can be seen as the digital version of a “Swiss Army Knife” when it comes to versatility and ease of use. There are 8 ports with which you can share or transfer data, reach to the internet or a network at high speed, make use of an external monitor with up to 4K resolution or charge a smartphone or tablet while you power up the laptop at the same time. All these ports have been combined in a sleek dock made out of aluminum.

The HDMI port allows the use of an external monitor or TV with a maximum resolution of 4K@30 Hz. The USB 3.0 ports transfer data from and to the laptop and are ideal for attaching multiple USB devices such as an external USB HDD/SSD enclosure, a USB mouse or a USB printer. The marked USB port (1.5A/BC1.2) can charge a smartphone or tablet with up to 1.5A. Over the Gigabit Ethernet port, a speedy connection to the internet or network can be established (no driver needed). The card reader supports SD (including SDHC/XC formats) as well as microSD memory cards and transfers photos and videos quickly to the computer. The USB-C port can be used to charge the laptop through a USB-C power adapter (Power Delivery) or as a data port.

Easy to use, easy to carry, not wanting to miss it!

Note: Not compatible with Apple USB SuperDrive. May evolve heat when in use. For highest possible resolution of 4K@30 Hz over HDMI, attached display or TV must support the resolution and refresh rate.

TECHNICAL SPECIFICATIONS

INPUT CONNECTIONS

1x USB-C 3.1 Type-C male
(compatible with Thunderbolt 3 port)

OUTPUT CONNECTIONS

1x HDMI 1.4 (up to UHD 4K)
3x USB 3.0 (up to 5 Gbps)
1x Ethernet (up to 1000 Mbps)
1x SD card reader
1x microSD card reader
1x USB-C for Power Delivery

POWER SUPPLY

Via USB-C from host (bus powered)
for low-energy peripherals or via USB-
C port from external charger for
simultaneous charging of the host
computer and peripherals.
Maximum Power Delivery (pass-
through power from external power
supply through mini Dock to host
computer) at 49W.

SYSTEM REQUIREMENTS

Computer with USB-C port
Mac OS X 10.10, 10.11, macOS 10.12,
10.13 or higher
(Windows 10 Boot Camp)

RESOLUTIONS

3840×2160 (UHD) @ 24/25/30 Hz
2560×1440 (QHD) @ 30/60 Hz
2048×1152 (QWXGA) @ 50/60 Hz
1920×1200 (WUXGA) @ 50/60 Hz
1920×1080 (FHD 1080p) @ 50/60 Hz
1600×1200 (UXGA) @ 50/60 Hz
1280×1024 (SXGA) @ 50/60 Hz
1024×768 (XGA) @ 50/60 Hz
800×600 (SVGA) @ 50/60 Hz
640×480 (VGA) @ 50/60 Hz

COMPATIBILITY

MacBook (Retina, 12-inch, Early 2015)
MacBook (Retina, 12-inch, Early 2016)
MacBook (Retina, 12-inch, 2017)
MacBook Pro (13-inch, 2016, Two TB
3 Ports)
MacBook Pro (13-inch, 2016, Four TB
3 Ports)

NOTES

Resolutions depend on display's
native resolutions. Resolutions in
between native display resolution(s)
may not be shown.
Do not unplug Power Delivery during
use. Unmount any attached devices
before unplugging power or host
connection.
Not compatible with Apple USB
SuperDrive.
HDMI port does not support the use
of a further AV adapter (i.e. HDMI to
DVI adapter).

DIMENSIONS

26.5 x 5 x 1.5 cm
